157 Varieties

Roses for the Living

from

Peyton A. Ellison

Specializing in East Texas Two-Year-Old
Field Grown, Budded, Dormant Rose Bushes

**Mercantile Building
Dallas, Texas**

Dear Rose Lover:

This is my variety list for this season. You doubtless expected my prices to be higher than last year, since everything has gone up. When my 1935 catalogue fully illustrated in colors comes off the press higher prices will prevail. Until then I am filling orders at old prices.

Order Now. All types and varieties of my roses are quoted at the same price, being merely separated into three grades as to quality. First come, first served on choice varieties. If you want them sent later, shipment will be made till April 15th. But **order now** while old prices prevail and my variety list is complete. After my new catalogue reaches you the new and higher prices will control.

Where My Roses Come From

It is my honest opinion that my roses are remarkable bargains. They are big, hardy, exceptionally well-rooted stock from East Texas, the most fertile rose growing section of the United States, producing millions annually, now growing and proving hardy and free-flowering in every State of the Union.

**Shipped Fresh, Direct From Nursery To You
—Painstakingly Pruned, Graded
and Packed**

Each and every plant is hand pruned by experts. They are rushed fresh and full of vitality direct from the nursery to your garden, ready to put in the ground, anxious to burst into bloom within a few weeks to fulfill your fondest expectations by their entrancing beauty and fragrance. There is nothing so beautiful and fragrant as a rose.

My Guarantee—You Must Be Pleased

I make an unconditional guarantee that if after you open your package of rose plants, you are not thoroughly satisfied with them and the condition in which they have arrived, then I will refund promptly the purchase price upon your immediately wrapping them up and returning them to me. I guarantee that every variety be true to name—and, in case of error on my part, shall refund the purchase price—but in no case shall I be liable for a greater sum than paid for the particular variety. If out of variety or grade ordered, I shall send another variety or grade—giving equal or greater value—unless told not to.

Order now while varieties complete and prices low.

Terms

Cash or C. O. D. Transportation prepaid in every case. **No order is accepted for less than \$1.00 worth of stock.**

All sales are made subject to stock being unsold when order is received or loss by any and all causes. It is always best to mention a second choice when ordering in case stock is exhausted on variety preferred as first choice. Right reserved to reject any order or orders.

Transportation Companies Will Charge You a Small Amount to Return Money on C. O. D. Shipments.

My Low Prices

Below are quoted prices for 1st, 2nd, and 3rd grade varieties. **All prices are prepaid delivered prices . . .** whether Cash accompanies order or C. O. D. shipment is made. I earnestly recommend that you order the 1st Grade varieties . . . as they are absolutely unsurpassed values. The 2nd and 3rd Grades are well worth the money and superior values, but the 1st Grade is really outstanding. Prices subject to change without notice.

	3 bushes	6 bushes	12 bushes	50 bushes	Over 50
1st Grade.....	\$1.25	\$2.25	\$3.50	\$12.50	25c ea.
2nd Grade	1.00	2.00	3.00	11.25	22c ea.
3rd Grade	1.00	1.25	2.00	7.50	15c ea.

 Templar. Deep scarlet-crimson.
 White La France. White tinged with a blush of rose.
 White Maman Cochet. (T). Cream-flesh to light lemon.
 Wilhelm Kordes. Pink, cream and gold.
 Willowmere. Rich shrimp-pink, shaded yellow in center, toning to carmine-pink.
 William R. Smith. (T) Soft silvery-flesh, shading to cream-peach, edges with lilac splashes.

Hybrid Perpetuals

Hybrid Perpetuals. The hardy, fragrant "June Blooming" bush roses. They are a mass of bloom in early season, and bloom sparingly after that, some varieties not at all.

American Beauty. Imperial pink to deep-rose.
 Frau Karl Druschki. Snow white.
 Gen'l. Jacqueminot. Brilliant, velvety crimson with darker shadings.
 George Arends. Light pink.
 Magna Charta. Deep rose, suffused carmine when full blown.
 Mrs. John Laing. Soft, clear pink.
 Paul Neyron. Rose to imperial pink.
 Soleil D'Or. Orange-yellow, shading to reddish gold.
 Ulrich Brunner. Cherry-red.

Did your roses suffer from the drouth? My roses went through four months of torried heat without a drop of artificial watering. They are big and tough—ready to stand heat, drouth and cold, and bloom their hearts out for you.

Climbers

- Aviateur Bleriot. Coppery orange buds open to flowers of saffron and gold, fading white.
- Belle of Portugal. Brilliant salmon-pink buds, opening lighter pink.

F. J. Grootendorst. Bright red.
Flower of Fairfield. Bright red.
Harrison's Yellow. Soft golden-yellow.
Hugonis. Clear, deep yellow.
Persian Yellow. Deep golden-yellow.

Read What These Satisfied Customers Say

NEW YORK

I want to say that I found my roses in excellent condition after their long trip, and that the bushes themselves seem to be of a very high quality. In this part of the country, we do not often get plants of this character without paying an extremely high price. And believe me, I am glad to avail myself of this opportunity.

ILLINOIS

I had the privilege of buying some roses on your recommendation last year, and the results were very satisfactory indeed. In fact, I believe that nearly every one survived and some of them produced roses all the way into cold weather.

MASSACHUSETTS

Enclosed find check for which send me roses. The roses I ordered from you in the spring all are nice bushes and have bloomed well.

OREGON

The six roses which you sent me are certainly fine plants. They have shoots on them several inches long and have only been planted about three weeks. I thank you very much and shall certainly tell my friends of your fine stock.

NEW YORK

I am very well pleased with the roses that I received. The shipping is no problem, because, I believe, that my roses arrived here forty-eight hours after they left Tyler.

WISCONSIN

We people in this climate are just beginning to feel that we can raise roses but we are finding that now many of the roses are really hardy here when protected from sun-burn. It has been a struggle to raise anything this summer because of the drought but nearly all of the roses that I received from you are doing beautifully.

SOUTH CAROLINA

My roses began blooming even before they put on foliage it seemed. In all my experience with buying roses never saw anything like this. It is simply unbelievable, and want 50 more when time to put out. Thank you very, very much. Check enclosed.

TENNESSEE

The roses have done remarkably well, have been much admired and enjoyed. I have found these splendid, hardy plants and have recommended them to our garden club. I am enclosing order for 64 roses with check.

KENTUCKY

Never have I seen such lovely rose plants and you may know how thrilled and surprised I was. They are in the ground and doing fine.
